Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

The submission of preliminary amendment filed on 2/23/04 is acknowledged. At this point claims 2 and 5 have been amended, new claims 6-11 have been added and the remaining claims left unchanged. Thus, claims 1-11 are at issue in the instant application.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 5-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Chase (US 6,331,068).

Referring to Claim 1 Chase discloses (Fig.5) a headlamp assembly including a lens [70], housing [62] and a flexure impact-absorbing member [90] positioned therebetween.

Referring to Claim 3 Chase discloses (Fig.5) a headlamp assembly including a lens [70], housing [62] and a flexure impact-absorbing member [90] positioned therebetween, the housing has a guide means for controlling the direction of deflection of the flexure member during an impact (col.4, lines 13-37).

Referring to Claim 4 Chase discloses that the flexure member may be made of two or more different materials (col.8, lines 47-51; col.9, lines 5-8).

Art Unit: 2875

Referring to Claims 6-8 Chase discloses that the flexure member may have a variable thickness and plurality of ribs (col.9, lines 1-8).

Allowable Subject Matter

Claims 2, 4, 9-11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is an examiner's statement of reasons for allowance:

Referring to Claim 2 the prior art of record fails to show a preformed bulge positioned at the intersection of the intersecting surfaces of the flexure member.

Referring to Claim 4 the prior art of record fails to show a lens having a guide for engaging the guide of the housing for controlling the direction of deflection of the flexure member during an impact.

Referring to Claim 9 the prior art of record fails to show a flexure member having undulations.

Referring to Claim 10 the prior art of record fails to show a flexure member having a sinusoidal cross section.

Referring to Claim 11 the prior art of record fails to show a flexure member having hollow tubes extending transversely.

Art Unit: 2875
